

ARCHAEOLOGICAL MUSEUM OF THESSALONIKI

## Conservation conference 2019 “Mosaics”

The Archaeological Museum of Thessaloniki is pleased to announce its 7<sup>th</sup> conservation science conference under the theme “Mosaics”. This year’s conference is scheduled for November 2019 and the topics that we will be looking into, include:

- the history of mosaics,
- the research on the ancient techniques of mosaic construction with a view to addressing conservation methodology issues,
- the assessment of corrosion damage and deterioration procedures on mosaics,
- Case studies of preventive and remedial conservation treatment on mosaics.

This year’s conference is organized by the Department of Conservation and Archaeometry of the Archaeological Museum of Thessaloniki in collaboration with the Department of Lithics, Wall-paintings and Mosaics of the museum.

More information on the 7<sup>th</sup> conservation science conference will be available and regularly updated at the museum’s website and social media.
